To whom it may concern,

Beijing Eastforce Superconducting Technology Co., Ltd. (EFST) is pleased to announce that Marphil International will be its sole and exclusive representative in European Union and United Kingdom, starting from January 1st 2024. Marphil International has had 35 years of experiences sourcing high performance specialty metals worldwide, and supplying to research organizations in EU and US. Marphil also supplies the REBCO - HTS tapes to the same customers. It has a strong track record of sales, services and business. EFST strongly believes that Marphil International will be a highly valuable partner and provides outstanding sales and services of Superconductivity measurement equipment to its European customers and UK customers.

For future requests for quotation and/or tendering processes, please include Marphil International using the following contact details:
